

New Date for Race – Sunday May 13th 2012

New Date

The new date for the James Williamson Enduro Challenge has been confirmed. **This will be Sunday May 13th**. We apologize once again for any inconveniences caused by postponing the race, and thank you all for your understanding! We realize that this new date may not suit all riders. In these cases, the following are possible:

1. Refund (We refund race fee minus 10% handling fee and day licence (if you took one out))
2. Transfer your entry to a friend (this way you don't lose any money). However in this case, if you originally took out a Day Licence, this gets refunded to you, and your friend still has to take out a Day Licence (if they are not MTBA current).
3. Hold your race fee over to 2013

If you would like to take any of the above, let us know via the enquiry facility on the website [here](#). For all other riders, you don't have to do anything. You are still registered and will receive regular updates regarding the Race.

New Registrations

For those who wished to join the race, but who missed out because of the cutoff, registrations have now been re-opened. We can take some new riders, in anticipation that the new date will not suit all current registrations. But if you have any friends who missed out, tell them to get in NOW. Regular posts will be published on the website regarding how many entries are still available and when entries will then close again.

Sunday May 13th is also Mothers Day.....all mothers are especially welcome - on a bike, as a helper or as a spectator. We will have special give away prizes just for mothers!

Extra time for training!

You can thank us for giving you two months extra training time!....for all those riders who asked for downgrading of categories because they had "not trained enough" – this is no longer an excuse (of course, just joking).....

Adidas Eyewear

A special offer has been released from one of our sponsors – Adidas. In case you were thinking of purchasing new eyewear in the next month or so, Adidas **Eyewear is offering 25% on these new sunglasses** for any purchases made on race day. All riders will receive a coupon in their race bag, which gives them 25% off Adidas Eyewear for race day purchases.

Adidas Eyewear will be presenting their latest 2012 releases at the Williamson Enduro Challenge. The award winning **evil eye Halfrim** (see right) cycling sunglasses are now available in five new colours: neon orange, neon blue, black/orange, white/red and silver metal/black. These sunglasses are worn by Australia's best mountain bikers: Dan McConnell, Chris Jongewaard, Syd Taberlay, Bec Henderson, Jodie Willett etc...

Adidas Eyewear is also launching two ultra-lightweight multisport sunglasses: the **Duramo** (see left) and **Raylor**. Weighing less than 20 grams each, these ultra-comfortable sunglasses are available in 2 sizes to cater to all face sizes and feature Adidas' patented double snap bridge for a truly custom fit. They both feature top of the line class-1 filters in Light Stabilising Technology for clear vision in various light conditions. **Duramo** comes with a 1-piece shield lens whereas **Raylor** is a traditional looking sports sunglass. **Raylor** can also receive Adidas' LST Polarised and LST Vario photochromic filters. All Adidas sunglasses are designed and made in Austria, guaranteeing the highest manufacturing quality.

Raffle

There are still opportunities to buy raffle tickets on-line through entries or at the Registration Tent on Race Day. The winning tickets will be drawn at the main *Race Presentation*, at 1.15pm May 13th. There are two great prizes are on offer

- The New **Radical Podda4L Mk3** with carbon helmet mount, charger and specially inscribed with a *Willio* label for this race
- A Podda Light, helmet mount, charger and special leather case.

These Australian made lights are being generously donated by Radical Lights
<http://radical-lights.com>

Don't miss this opportunity to opportunity to enhance your night riding. Both lights are valued at around \$A1000 each.

For all other details check the website. Have fun training.....
